

DIVERTER SELECTOR

VALVE

#6490060100

- PARTS INCLUDE:**
- Diverter Selector Valve
 - 2 Multi-hose Adaptors
 - Fill Hose
 - Fill Hose Seal

INSTALLATION INSTRUCTIONS

This selector valve must be used with a Raincollector Downspout Diverter System.

1. Hold the selector valve with the Y outlet ends facing down and press into the diverter opening until there is no gap between the valve and the diverter. If there is a gap, gently twist the valve from side to side while pushing inward until the valve seats against the front edge of the diverter with no gap.
2. Position the selector valve based on the connection(s) you are trying to achieve.

**CONNECT A HOSE OR ANOTHER RAIN
BARREL TO DOWNSPOUT DIVERTER**
