

Triple Action Filtration System (Slim)

With UV-resistant components and corrosion-resistant fittings, this single stage filtration system is equipped to handle high flow rates and water volumes.

Triple Action Filtration System (Slim)	10"	WFRW11
Triple Action Filtration System (Slim)	20"	WFRW12

- Designed for rainwater supply to reduce taste, colour, odour and chlorine
- Protect internal appliances from sediment damage and tannin stains
- Includes triple action filter cartridge to remove particles as small as 10 micron

Triple Action
Filtration System (Large)

Triple Action & Whole House Two-Stage Filtration Systems (Large)

With UV-resistant components and corrosion-resistant fittings, these whole of house filtration systems are equipped to handle high flow rates and water volumes.

Whole House Two-stage
Filtration System (Large)

- The large capacity, Triple Action Filtration System reduces fine sediments, taste, colour, odour and chlorine down to 10 microns for use around your property.
- The two-stage whole of house filtration features a 25 micron heavy-duty sediment filter to remove scale, lime, rust, lime, sand and other sediment, and second stage filtration to reduce taste, colour, odour and chlorine down to 10 micron.

Whole House Self-Cleaning
Two-stage Filtration System

Whole House Self-Cleaning
Three-stage Filtration System

Whole House Self-Cleaning Two and Three-Stage Filtration Systems

Multi-stage rainwater filters with self-cleaning pre-filter for two and three stage water filtration.

Two-stage Filtration System	10"	WFRW23
Three-stage Filtration System	10"	WFRW31

- High quality UV-resistant heavy-duty housings
- Designed for rainwater supply to reduce sediment, scale, taste, colour, odour and chlorine.
- Self-cleaning 90 micron pre-filter to remove large particles and sediment.
- Protect internal appliances from sediment damage and tannin stains.
