

INSTALLATION INSTRUCTIONS

Your Next Generation Hose Meter comes with batteries installed and fittings attached so you are able to immediately screw it on to your outdoor faucet.

OPERATION

1. When the water flow commences both a) and b) will show the volume of water being used.
 - a) displays the current volume of water being used
 - b) displays accumulated water usage
2. To reset the water volume used in the current episode (a) to zero, press "Clear". Note the accumulated water use reading (b) will continue to accumulate until reset.
3. To reset a) and b) back to zero press "reset".

The Next Generation Hose Meter will measure up to 999 litres or gallons before resetting.

SWITCHING MEASUREMENT (GALLONS/LITRES)

The Hose Meter has been set to default to gallons. To change it to litres hold the "clear" button down for three seconds and release. A dark dot will appear on the left hand side of the screen and GAL will flash. Select LIT by pressing "reset" and press "clear" to confirm setting.

SAVE BATTERY MODE

The screen will fade out in 30 minutes if there is no water flow or button activation.

BATTERY REPLACEMENT

The Next Generation Hose Meter uses a button battery (CR2032). For optimum performance it is recommended to replace this battery every 12 months.

DISCLAIMER

- The Next Generation Hose Meter is designed for residential use only.
- Accuracy of the Next Generation Hose Meter is expected to be above 90% however this can vary depending on a number of variables.

GUARANTEE

Every Little Drop guarantees this product for 12 months from date of purchase.

Please note: The benefits conferred by this warranty are in addition to all other rights and remedies available in law in respect to the goods and services to which it relates. Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and for compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.
